

Disability Programs and Resource Center

San Francisco State University

Social Justice and Equity Through Universal Access

The Disability Programs and Resource Center (DPRC) collaborates with San Francisco State University's diverse community to ensure that all aspects of campus life — learning, working and living — are universally accessible. The DPRC provides the University with resources, education and direct services in order that people with disabilities may have a greater opportunity to achieve social justice and equity.

Every effort is put forth to ensure that students, faculty and staff with disabilities at San Francisco State receive the services and accommodations to which they are entitled under federal and state law.

The Disability Programs and Resource Center is a unit within Student Affairs & Enrollment Management.
